SAVE ENVIRONMENT (Nov 2024 to Dec 2024)

❖ PROJECT – 1::

Free Education For Children

Children from the less fortunate segments of Indian society rarely have enough money for education. Giving away free education is imparting a wealth of knowledge to those who want it but cannot afford it. Having a positive impact on others and inspiring them to live happier life is something we can all do. Contributions can make a significant difference in assisting the disadvantaged in receiving an education. RANA FOUNDATION TRUST education initiatives address the need of the hour and develop the youth by offering access to excellent education through multi-pronged strategies. Its aim is to boost India's educational quotient and lead to a shift towards meaning and purpose in one's life:

- No matter their caste, creed, or religion, orphans and semi-orphans from bereaved families should have access to a quality education through a network of schools.
- Scholarships should be offered to deserving students so they can continue their education to professional levels and become self-sufficient.

❖ PROJECT – 2::

HEALTH CAMP

Health is one of every human being's fundamental rights to live in peace and security. It is the primary responsibility of all to protect and safeguard the health of each citizen.. It is the foremost duty of the general public and charitable philanthropists to provide a helping hand to suffering people in order for them to live decent life. Allow us to assist you...

❖ PROJECT – 3::

GROUP ACTIVITIES FOR CWSN

The two main challenges individuals with Autism face are “**persistent deficits in social communication** and social interaction across multiple contexts” and “**restricted, repetitive patterns of behaviour**, interests, or activities”. In order to help overcome these challenges group activities at regular intervals are held at Projonmo Therapy Centre which helps children **build independence and self-determination, learn communication and social skills** etc.

❖ PROJECT – 4::

VOCATIONAL TRAINING

The Vocational Training Programme, started by trust in 2023, is run for girls from underprivileged families of resettlement colonies and the urban slums of ara and other places. It operates at 13 centres, empowering over 650 young participants with skills and practical competencies for the job market, every year. The programme has seen a steady increase in the number of beneficiaries over the years. We provide certifications, qualifying the girls for government jobs.

The courses offered, namely, tailoring, beauty culture, computer graphics and animation, allow girls to work within or near their homes, even after marriage, without requiring large investments. The training courses are 6 / 12 months long and the trainees simultaneously undergo sessions in English-speaking, confidence-building, motivation, communication and presentation skills, etiquette and attire, along with legal rights and self-defence. Complementing these are sessions of art and craft, especially handicraft and painting. Our greatest achievement has been the delay in the average age of marriage of these girls from 16 years to 23 years! New confidence and independence inculcates a desire to prove themselves rather than simply submit to marriage from economic compulsion. We also observe that a large number of our young girls turn entrepreneurs. They start their own beauty parlours and tailoring shops, making them in a small but significant way, masters of their destinies!

❖ PROJECT – 5::

Women empowerment programs

The empowerment phase will enable women to protect their rights as women, safeguard themselves and earn a livelihood and be economically independent.

WE WILL ACHIEVE THIS THROUGH PROGRAMS THAT FOCUS ON:

- Organize initiatives aimed at empowering women and contribute to giving voice to the people who are generally unheard.
- Offers Livelihood Training for Disadvantaged Women in Computer, Self-Defense, English Speaking, Tailoring & Embroidery, and Library in order to help them support their families.
- Advocacy for women's rights
- Free legal assistance and counseling for abuse victims (including those who have been the victims of sexual harassment, acid attacks, child marriage, and dowry harassment)
- Shelter for those who have been subjected to domestic violence and abuse of any kind
- Nutrition and child care
- Education on maternal health, and safe child birth
- To contribute to the development of a more influential, equal, and socially conscious society.
- The girl child is the pride of society; protect her, and the nation will be protected.

❖ PROJECT – 6::

CELEBRATION OF INTERNATIONAL DAY OF PERSONS WITH DISABILITIES

International Day of Persons with Disabilities (IDPD) is a UN day that is celebrated every year on 3 December.

The day is about promoting the rights and well-being of persons with disabilities at every level of society and development, and to raise awareness of the situation of persons with disabilities in all aspects of political, social, economic, and cultural life. WHO joins the UN in observing this day each year, reinforcing the importance of securing the rights of people with disabilities, so they can participate fully, equally and effectively in society with others, and face no barriers .

❖ PROJECT – 7::

Public awareness programs

RANA FOUNDATION TRUST is a non-profit organization dedicated to the overall development of Indian society by implementing various public awareness initiatives related to health, cleanliness, family planning, and aids through marathons.

In order to achieve the most significant social impact in the shortest amount of time and to help the development of society, we create a circle of socially conscious citizens and use the special marathon model to create a highly productive volunteer environment. We do this by developing various public awareness programmes that protect people from being mistreated by the community. It provides a chance for volunteers who want to make a difference in society and bring about good change to witness the results of their work in real-time.

Through voluntarily made contributions from individuals and business donors, we raised money. By making kind donations, you may join the following causes as well:

Swaccha bharat abhiyan- To raise awareness of Swaccha Bharat, the RANA FOUNDATION TRUST has taken a number of steps and organised a special event to educate the public about the importance of preserving the cleanliness and natural beauty of our country and our commitment to upholding its Swachchhata.

Run for Plastic ban- RANA FOUNDATION TRUST organises marathons and has urged corporations, organisations, and individuals to take actions to combat the plastic waste that is contaminating our oceans and harming marine life. We committed to reducing plastic waste by taking a number of actions, such as educating people about the negative effects of plastic bags, emphasising the need for more responsible plastic usage, reminding people to live sustainably for a happier and healthier planet, and reducing the devastating impacts of plastic on the environment and the rivers.

Run for education- RANA FOUNDATION TRUST organises a run to promote excellent education, empower impoverished children via cost-free education, and support for a healthy future for poor children in an effort to raise awareness about the right to education for underprivileged children. We are dedicated to improving literacy and education in India and assisting underprivileged kids in reaching their full potential.

Run for fitness- Through public awareness and social activity that exemplifies all facets of health and its numerous advantages, RANA FOUNDATION TRUST seeks to broaden the concept of a healthy and sustainable existence and make a constructive contribution to our community. Healthier people benefits both our economy and our communities. Being active improves one's overall health, physical fitness, willpower, and sense of personal well-being. People are able to live happier, more fruitful lives as a result. It gives us the freedom to indulge in our passions and live our best, most contented lives.

Run for Green marathon (Tree Plantation)- As part of its efforts to drive tree plantation and other environmentally friendly projects, the RANA FOUNDATION TRUST takes environmental-friendly initiatives. A run was held to raise environmental awareness about keeping the area clean and increasing its green cover, and promoting tree planting as a means to ensure a healthier environment. Runners had the opportunity to dedicate the trees to their family and friends with customized placards. They also explained the benefits of trees whenever someone tried to cut one down on their own property.

Run against cancer/ aids- RANA FOUNDATION TRUST offers great potential to raise awareness about health issues and mobilize support for action of people living with HIV/ Cancer. From early identification and treatment to cancer education, we have been helping impoverished cancer patients. We promote open communication about the stigma associated with HIV/AIDS and urge individuals to receive HIV care without hesitation or bias. Since the start of awareness-raising campaigns, we receive an increase in the number of patients requesting assistance every year. Funds raised by the marathon will benefit those fighting cancer, HIV/AIDS, or both. We felt amazing knowing that we were able to aid others, and especially that we were able to save lives. Join

us for marathon to promote awareness about the deadly disease and promote a healthy lifestyle!

❖ PROJECT – 8::

Help for Helpless or Poor

RANA FOUNDATION TRUST donated blankets to many poor people, provided food, clothes and other necessary things to the people.

A very famous quote by Winston Churchill goes “We make a living by what we get. We make a life by what we give”. A person is not known how much he is able to save or earn, but how much he’s able to give out to help others. People with the heaviest pockets can sometimes be hesitant of helping others while a person with mere nickels might go out of his way to help out someone in need.

Helping poor people is a form of gratitude and service to god and humanity. People should always look out for an opportunity to help one another.

Clean Ganga Mission

- **Cleaning the river:** This includes collecting and disposing of solid waste from the river and ghats
- **Controlling pollution:** This includes reducing non-point pollution from agricultural runoff, human defecation, and cattle wallowing
- **Setting up waste treatment plants:** These plants are located along the river around cities
- **Conserving biodiversity:** This includes restoring the populations of endangered and endemic species in the river
- **Developing public amenities:** This includes renovating ghats and other public infrastructure
- **Research and development:** This includes developing new technologies and processes for cleaning the river.

Work for Animal Welfare

- **Animal shelters:** Rescue, shelter, and rehabilitate animals in need, and find permanent homes for them
- **Animal sanctuaries:** Provide lifelong care and shelter for animals rescued from abusive situations
- **Animal cruelty investigators:** Find animals who are facing cruelty and remove them from their properties
- **Animal legal defense funds:** Advocate for the rights of non-human animals through lobbying and taking animal abusers to court
- **Education programs:** Conduct education programs across schools
- **Media programs:** Promote and produce media programs on animal-related issues
- **Training programs:** Conduct training programs for lawyers, police officers, vets, and animal owners
- **Treatment camps:** Provide free treatments to stray animals
- **Disaster rescue missions:** Participate in disaster rescue missions
- **Legislation:** Work to ensure that the lives of all animals are made better through legislation

Save Environment Mission with Group

- Working towards Sustainability:

Each trustee is actively working towards sustainability:

Promoting sustainable solutions and increasing public awareness of environmental problems. In order to encourage environmentally friendly activities, they hold workshops, seminars, and tree-planting campaigns. Environmental Club:

- This group is dedicated to planning campus clean-up events, trash reduction initiatives, and efforts to promote recycling. To have a bigger effect, they also work along with regional environmental groups. Enviro Health:
- The relationship between a healthy environment and human health is emphasised by Enviro Health. To educate students about the significance of environmental health, they hold forums, health fairs, and awareness campaigns. Jal Sanchay:
- Jal Sanchay is dedicated to initiatives to save water. To guarantee responsible water consumption on campus, they focus on rainwater collection projects, water purification efforts, and water-saving programmes.

-
